

Cache & Cookies

How do I clear my Cache & Cookies?

It is a good idea to clear your cache files about once every week. Cache can be the cause of strange warning messages and security issues.

To clear cache:

- Open your web browser.
- From the Standard toolbar, click on “Tools,” then scroll down to “Internet Options...”

- Click on the  button.
- Click on the  button.
- Click .

Your cache & cookies files are now clear.
