

SF User Group Meeting  
November 14, 2007  
Recorded by NDSCS

In attendance: BSC,UND,NDSCS,MISU,NDSU,LRSC,VCSU,WSU, and Marie.

General Agenda Items:

1. International Tax Law-Janet had several questions regarding this issue and since she was not on the call, it was decided to wait for this discussion. There is a possibility to meet after one of the 9.0 testing days in Grand Forks to discuss this issue.
2. Other-
  - a. Collaborative Process- Mary at BSC will send an email which will include the proposed process for our consideration and approval. She needs to collect any feedback by November 30<sup>th</sup>. A discussion on this topic will also try to be worked in when the group is in Grand Forks.
  - b. 1098T's- The volunteer testing group on the process states that it seems to be working well. Once they receive the OK that everything will work, they will roll out the process to all campuses for additional testing.
  - c. Touchnet-There is training to be set up for Marketplace with the proposed dates of November 27<sup>th</sup> and 28<sup>th</sup>. Karin will find out from Dee what the specifics are regarding when and where for the training. There are still "bugs" to be worked out regarding e-bills and other Touchnet issues, so Karin will ask for an update from Touchnet on the issues that were submitted by Peggy on 10/24/2007. Because of some of the existing issues, several campuses have not put e-bills on Touchnet as of yet.
  - d. Spring Tuition-The automatic tuition calc for 0830 will begin 12/02/2007. UND, BSC, and NDSU reported 0810 issues regarding credit history, waivers, and zero balance problems interfering with 0830 registration.

DR Items: None
