

### NDU\_0031\_SR – Total Enrolled Students – Query

**Logic –**

The Student Career Term Table searches the Operator Default Table to get the user's default Institution. At this point the program checks the Student Career Term Table to determine if the student has withdrawn (checks withdraw code) or not registered for classes for credit (checks academic load and units taken for progress).

**Report/Query Navigation-**

There is no Navigation Page for this.

<b>Fields –Displayed</b>	<b>Tables</b>	<b>Navigation</b>
COUNT(DISTINCT C.EMPLID)	Student Career Term Table	None

**Tables –**

B = OPR\_DEF\_TBL\_CS – Operator Default Table – CS

C = STDNT\_CAR\_TERM – Student Career Term Table

**Table Connections –**

From C to B:

INSTITUTION – Academic Institution
