

NDU_0046_SR – New Enrolled Student Misc – Report

Logic –

The Adm Application View table first checks the Personal Data Table for the Students name. Then the program searches the Adm Application View Table for Admit Type (FYR, DC, ERE, TRN). Then this searches the Operator Default Table to get the user's default institution. After this it searches the Student Career Term Table for the Students Academic Info. Then it will check the Students Program status using a Subquery. At this point it checks the Student Career Term Table to determine if the student has withdrawn (checks withdraw code) or not registered for classes for credit (checks academic load and units taken for progress). At this point the program uses an outer join between Tables Adm Application View Table and the Student Test Components Table to find the student's Test ID, Component, and Score. (It uses a Subquery to get Test Info.) Then it does an outer join between Student Career Term Table and Student Test Components Table to find the Students GPA. (It uses a Subquery to get the GPA.) After this there is another outer join between Adm Application View Table and External Organization Table to find the last school attended. Then there is an outer join between Adm Application View Table and External Academic Summary Table for the Units Taken. Then there is two more outer joins between these two tables for the Student ID and Institution. (It uses a Subquery to get the Student ID and Institution.) At this point there is another outer join between Student Career Term Table and EE/Dependent Citizenship Table to find the Student's Citizenship status. (This uses a subquery to find the Status and also find the Country) Then the Student Career Term Table searches the Diversity Data Table for the Ethnicity of the Student.

Report/Query Navigation-

Name = Home > Build Community > Bio/Demographic Data > Use > Names

EmplID = Home > Build Community > Bio/Demographic Data > Use > Bio Demo Data

Admit Type = There is no Navigation Page for this.

Units Taken Progress = Home > Manage Student Records > Manage Academic Records > Use > Term History (click "View All")

Graduation DT = Home > Manage Student Records > Track Student Careers > Use > Student Degrees

Academic Program Primary = Home > Manage Student Records > Track Student Careers > Use > Student Program/Plan

County = Home > Build Community > Bio/Demographic Data > Use > Bio Demo Data

Description = Home > Manage Student Records > Track Student Careers > Use > Student Program/Plan

Sex – Gender = Home > Build Community > Bio/Demographic Data > Use > Bio Demo Data

External GPA = Home > Manage Student Records > Manage Academic Records > Use > Term History (Second Tab)

Class Rank = Home > Manage Student Records > Track Student Careers > Use > Student Degrees

Class Size = Home > Manage Student Records > Track Student Careers > Use > Student Degrees

Percentile = There is no Navigation Page for this.

Ethnic Group = Home > Build Community > Bio/Demographic Data > Use > Ethnicity

Fields –Displayed	Tables	Navigation
D.NAME -Name	Personal Data Table	H >BC >B/DD >U >N
B.EMPLID -EmplID	Adm Application View	H >BC >B/DD >U >BDD
B.ADMIT_TYPE –Admit Type	Adm Application View	None
C.UNT_TAKEN_PRGRSS – Units Taken for Progress	Student Career Term Table	H >MSR >MAR >U >TH
B.Graduation_DT – Graduation Date	Adm Application View	H >MSR >TSC >
C.ACAD_PROG_PRIMARY –Primary Academic Program	Student Career Term Table	H >MSR >TSC >U >SP/P
D.COUNTY -County	Personal Data Table	H >BC >B/DD >U >BDD
F.DESCR -Description	External Organization	
D.SEX -Gender	Personal Data Table	H >BC >B/DD >U >BDD
H.EXT_GPA –External GPA	External Academic Summary	H >MSR >MAR >U >TH
H.CLASS_RANK –Class Rank	External Academic Summary	H >MSR >TSC >U >SD
H.CLASS_SIZE –Class Size	External Academic Summary	H >MSR >TSC >U >SD
H.PERCENTILE -Percentile	External Academic Summary	None
O.ETHNIC_GROUP – Ethnic Group	Diversity Data Table	H >BC >B/DD >U >E

Tables –

C = STDNT_CAR_TERM – Student Career Term Table

D = PERSONAL_DATA – EE Personal Data

E = STDNT_TEST_COMP – Student Test Components

F = EST_ORG_TBL – External Organization Table

G = OPR_DEF_TBL_CS – Operator Default Table – CS

B = NDU_ADM_APPL_VW – Adm Application View

H = EXT_ACAD_SUM – External Academic Summary

S = STDNT_TEST_COMP – Student Test Components

L = CITIZENSHIP – EE/Dependent Citizenship

O = DIVERSITY – Diversity Data

Table Connections –

From Table B to D:

EMPLID – EmplID

From Table B to G:

INSTITUTION – Academic Institution

From Table B to C:

EMPLID – EmplID

ACAD_CAREER – Academic Career

INSTITUTION – Academic Institution

ADMIT_TERM – Admit Term

STRM – Term

From Table B to E:

EMPLID – EmplID

From Table C to S:

EMPLID – EmplID

From Table B to F:
