

NDU_0031_SR_LIST – Enrolled Students – Query

Logic –

The Student Career Term Table searches the Operator Default Table to get the user’s default Institution. At this point the program checks the Student Career Term Table to determine if the student has withdrawn (checks withdraw code) or not registered for classes for credit (checks academic load and units taken for progress).

Field Page Navigation-

EmplID = Home > Build Community > Bio/Demographic Data > Use > Bio Demo Data

Name = Home > Build Community > Bio/Demographic Data > Use > Names

STRM = There is no Navigation Page for this.

Fields –Displayed	Tables	Navigation
B.EMPLID –EmplID	Student Career Term Table	H >BC >B/DD >U >BDD
D.NAME –Name	Personal Data Table	H >BC >B/DD >U >N
B.STRM –Term	Student Career Term Table	None

Tables –

A = OPR_DEF_TBL_CS – Operator Default Table - CS

B = STDNT_CAR_TERM – Student Career Term Table

D = PERSONAL_DATA – EE Personal Data

Table Connections –
