

NDU_0054_SR – Student Overload Report

Logic –

The Student Career Term Table first checks the Units Taken to be no less than 2. Then it checks the Personal Data Table (B) for the Students Name. Then it checks the View of EMPLID and Home Phone table for the student’s home phone. After this it checks for the student’s Advisor and credits. Then the Student Adviser History Table searches the Personal Data Table (E) for the Advisor’s name.

Report/Query Navigation-

Name = Home > Build Community > Bio/Demographic Data > Use > Names

Units Taken Progress = Home > Manage Student Records > Manage Academic Records > Use > Term History (click “View All”)
