Internal Validity	7	6.9	6.9	6.9	6.9	6.9	7.0	6.9	6.9	7.0	7.0	7.0	7.0	7.0	7.0

Note: The statistics of all scales except internal validity were computed from percentile scores. For all of the scales, the national norm is the 50th percentile. High scores indicate high levels of the characteristic described in the scale name (e.g. a high score on sociability means that the group was above the average in sociability). The statistics for internal validity were computed from raw scores (ranging from 0 to 7).
