8. American Society of Dispensing Audiologists.
9. American Auditory Society.

The list of approved continuing education will be updated as requests are made. Please check this list to see if a class you are interested in has already been approved. Once it's on the list, you do not need to request approval. Pre-approval of courses is to your benefit as it will make your relicensure process go more smoothly and quickly.

Please note: *Whether a course is on the list or not and whether it is ASHA approved or not, you will always need to attach proof of attendance (i.e., certificate of completion, registration receipt, etc.) when you submit your renewal form.*

The continuing education request form is also on the internet at: www.und.edu/dept/ehd/NDSBE/
