
Internet

Revised: 11.03.05

If an employee has a demonstrated need for internet access at their residence to fulfill a requirement of their employment with the University, they should submit a request to their respective department head/dean for authorization to use University resources to pay for that access.

If the internet access is paid for from University Funds, use is subject to North Dakota University System Procedure 1901.2, Computer and Network Usage.

The authorized usage is as follows:

1. Use of computing and networking resources shall be limited to those resources and purposes for which access is granted.
2. Use for political purposes is prohibited.
3. Use for private gain or other person use not related to job duties or academic pursuits is prohibited, unless such use is expressly authorized under governing institution or system procedures, or, when not expressly authorized, such use is incidental to job duties or limited in time and scope, and such use does not:
 - 1) interfere with NDUS operation of information technologies or electronic mail services;
 - 2) burden the NDUS with incremental costs; or
 - 3) interfere with the user's obligations to the institution or NDUS.

If your request is approved, a copy of the approval should be attached to the Voucher(s).
