

Steve Burian to receive Young Alumni Achievement Award

FOR IMMEDIATE RELEASE

September 14, 2005

Steve Burian, '90, '92, earned a bachelor's and master's degree in engineering, with an environmental emphasis, both from UND. Steve was an all-American and captain of the UND track and field team in 1989 and 1990. He currently serves as chief executive officer of Advanced Engineering and Environmental Services, Inc. (AE2S), a firm he co-founded in 1991.

Steve is active in both the Grand Forks community and UND, volunteering as a School of Engineering and Mines alumnus as well as a former athlete.

Steve and his wife Barb (Bergantine), '90, '95, and their two children live in Grand Forks.

The Young Alumni Achievement Award is an honor bestowed on the leaders of tomorrow. The recipients must have graduated within the last 15 years and obtained high levels of achievement in a career or profession, demonstrated leadership capability, have skills that demonstrate potential for distinction, and substantial indications of a commitment to the service of others.

The UND Alumni Association has a membership of more than 105,000 graduates and former students, and conducts a comprehensive program of alumni relations throughout the United States. The UND Foundation is the sister corporation of the University of North Dakota Alumni Association and was organized to receive alumni and other private gifts for the benefit of UND.

The UND Alumni Association and the UND Foundation are both independent, nonprofit corporations. They are recognized among the most successful independent organizations for any public college or university of UND's size in the nation.
