

Student Assessment of Teaching

Summer 2006

Instructor: Quinn, Andrew

Course: SWK 257 Hum Beh Soc Env I

Describe some aspects of this course that promoted your learning.

- Excellent use of technology, they much enhanced the learning process. Discussions were relevant and interesting. Movies and the looking at questions about development was very helpful.
- Blackboard! Class discussions.
- Clickers, movies, Pat and Bruce
- Having to watch the movies and write the papers helped me to understand the material better.
- The movies helped cement what we learned.
- Powerpoints—you can actually listen instead of always writing; Good class discussion

What specific, practical changes can you recommend that might improve the learning in this course?

- This isn't related to learning really but if Dr. Quinn posted the grades on blackboard I'd have felt more secure knowing what the grade was so far—since he grades in a way that I don't really understand.
- None really
- Don't use groups for presentations in summer, it's hard to find time to get together in 3 days. This course would be better if taught over 6 weeks or whatever stats gets.
- No changes needed
- Maybe less wordy slides—sometimes I couldn't find the most important part
- For a 3 credit course in 12 days, it wasn't too bad!

If a student asked whether you would recommend *this* course from *this* instructor, what would you recommend and why?

- Yes—easy to talk to, helpful, cares if you are learning
- Yes—easy to follow, expectations were clear
- Yes, Professor Quinn is a great instructor who makes the class fun, especially when you have it at 8:00 a.m.!
- Yes, interesting course
- Yes. It was a solid class, the most difficult part was separating some of the like(sp?) areas in each chapter.
- I would recommend taking this course from Andrew. Very applicable to the field of study & life in general. Andrew was helpful in making a 4-hour class doable.
- Yes—easy going & fun—explains things in a way that makes it relatable.
