

Spring Semester 2008 –

Geoscience Lectures (Geol 356)

Seminar I (Geol 421), Seminar II (Geol 422)

Lectures and Seminars in 100 Leonard Hall (Lecture Bowl)

[Field Notebook Guidelines PDF](#)

Course Professor - Dr. Joseph Hartman

204 Leonard Hall, joseph_hartman@und.edu, 701-777-5055

Office and Office Hours

M-W-F at 10:00–10:50 a.m., open door and by appointment

REQUIRED MEETING TIMES ([get a pdf of this document](#))

Students will meet for class at 12:00–12:50 p.m. and 3:00–3:50 p.m. every Friday for presentations and lectures.

Students are also required to attend lecture GGE departmental presentations held at other times.

I understand that conflicts will arise for irregular presentation times. See grading procedures for accommodations.

See LEEPS calendar for class presentation schedule. See schedule below for other specifics. Students need to keep on top of the schedule (which can get a little messy).

BASIC COURSE SYLLABUS ([LEEPS Calendar](#))

Date	Lc#/Day	Lecture/Topic/Presentation	Reading
Jan. 11	Noon	Fri	Course structure, grading procedures, and establishing a routine. What do we know about giving presentations? Students in Geol 421-422, provide me by e-mail an object of interest for your Artifact talk by noon on January 15 (next Thursday) (1 point). Artifact Talk Help PDF
			<i>Don't forget to consider early a term project for your PowerPoint presentation.</i>
