re: Geology field trip Thursday Sept 13 through Sunday Sept 16

This fall two of our Geology classes (Geology 303 and Geology 320) are going on a combined field trip to Yellowstone National Park and the Beartooth Uplift nearby. This trip is a very important part of our curricula and we expect all students to partake if at all possible.

Because we leave on Thursday, some students will miss other classes. I hope all instructors understand that this trip is important and will let students miss class without penalty.

If anyone has any questions, don't hesitate to give me a call (777-2991) or send me email at dexter_perkins@und.edu.
